INTELLIGENCE MEMORANDUM

Situation in the Dominican Republic
(As of 0600 EDT)

The Soviet government has instructed its UN representative to seek an urgent security council meeting to examine US intervention in the Dominican Republic, according to the USSR's TASS news service. The Soviets have also sharply criticized the statement President Johnson made last evening and alleged that he simply repeated false charges of "red infiltration" in the Dominican Republic. The USSR claimed that the US propaganda machine would keep playing up "this falsity" as a "protest to justify the American armed intervention."
